

Fall Women Build

October 25-27, 2022

Located at our 61st home build site in Middletown!

Habitat for Humanity in Monmouth County has a long history of women affecting change through the initiative known as **Women Build**. This October, our Fall Women Build will be a unique opportunity where women can work together to volunteer, build and advocate for decent and affordable homes along with our partner families.

We are inviting local eateries to help support our mission by donating food and/or beverages for participants of this year's Fall Women Build. There will be approximately **25 participants** each day on the build site. Lunch takes place at 12:00pm.

Sponsors will receive social media shout-outs, be included on our website, and in press releases relating to the event.

YES, we would love to provide food and/or beverages for this event!
