

Serving Northeast and Western Monmouth County

Fall '22 Women Build Event: October, 25 - 27

Our Women Build event provides the opportunity for women to take a proactive step in serving their communities. Volunteers work under the guidance of construction professionals, and also alongside other volunteers and future Habitat homeowners. It is a rewarding experience for all involved, and improves the community that we share. (*No experience is necessary, all volunteers will follow safety guidelines as mandated by the state. Lunch included.
